3. Windows 10 Start menu interface.

The Windows 10 Start menu is a central hub for launching applications and accessing system settings. It features a grid of colorful tiles that can be customized to show frequently used apps and information. The tiles are organized into two main sections: 'Life at a glance' on the left, which includes tiles for Calendar, Mail, Microsoft Edge, Photos, Search, Weather, Phone Companion, and OneNote; and 'Play and explore' on the right, which includes tiles for Xbox, Music, Movies & TV, Money, News, Store, and Get Office. The background of the Start menu is a scenic image of a person running on a beach at sunset. At the bottom, there is a taskbar with the Windows logo, a back arrow, a search magnifying glass, and a task view icon. On the left side of the Start menu, there are icons for power, settings, and a list of apps.

Note -2
