Intel 7th Gen Core i3, i5, i7 Processors

《Intel 7th Gen Core i3, i5, i7 Processors》
! Intel 7th Gen Core i3, i5, i7 Processors

Intel 7th Gen Core i3, i5, i7 Processors are designed to deliver exceptional performance and power efficiency. The 7th Gen Core processors feature a 14 nm process technology, providing improved performance and power efficiency. The 7th Gen Core processors also feature Intel Hyper-Threading Technology, which allows each core to behave as two separate cores, doubling the number of threads that can be processed simultaneously. The 7th Gen Core processors also feature Intel Turbo Boost Technology 2.0, which allows the processor to dynamically increase its clock speed to match the workload. The 7th Gen Core processors also feature Intel Thermal Velocity Boost, which allows the processor to dynamically increase its clock speed to match the workload. The 7th Gen Core processors also feature Intel Thermal Velocity Boost, which allows the processor to dynamically increase its clock speed to match the workload. The 7th Gen Core processors also feature Intel Thermal Velocity Boost, which allows the processor to dynamically increase its clock speed to match the workload.
