A silver Lexus sedan is shown in a factory setting, equipped with a roof-mounted sensor array. The car features 'TOYOTA INSTITUTE' branding on the side. The background shows industrial equipment and a polished floor.

A silver Toyota Camry sedan is shown from a side profile, parked on a highly reflective floor. The car is equipped with a black roof-mounted sensor unit, likely a laser radar (LiDAR). The side of the car features a graphic design with circuit-like lines and the text "TOYOTA RESEARCH INSTITUTE" in red and black. The car is positioned in front of a plain, light-colored background.
