1. The first step is to create a new project in Unity. You can do this by clicking on "File" > "New" > "Project".
 2. Once the project is created, you can start by creating a new scene. You can do this by clicking on "File" > "New" > "Scene".
 3. The next step is to create a new GameObject. You can do this by clicking on "GameObject" > "New" > "GameObject".
 4. Once the GameObject is created, you can add a new component to it. You can do this by clicking on "Component" > "Add".
 5. The final step is to save the project. You can do this by clicking on "File" > "Save".

 10. The final step is to save the project. You can do this by clicking on "File" > "Save".

Rolling Sky is a puzzle game where you control a sphere to roll through a series of checkered paths. The game is designed to be a relaxing and challenging experience. The left screenshot shows a purple sphere rolling on a white and blue checkered path, with a 22% progress indicator. The right screenshot shows an orange sphere rolling on a red and black checkered path, with several dark, spiky obstacles.
