Instagram is a social media platform that allows users to share photos and videos with their friends and followers. It is owned by Facebook and is one of the most popular social media apps in the world. The app is available on both iOS and Android devices. Instagram was founded in 2010 by Kevin Systrom and Mike Krieger. The app has since become a major force in the social media landscape, with over 1 billion active users as of 2018. Instagram's success is largely due to its focus on visual content and its user-friendly interface. The app has also become a major platform for influencers and brands to promote their products and services. Instagram's popularity has led to the creation of a new category of social media influencers, known as "Instagram influencers". These influencers are individuals who have a large following on Instagram and are often used by brands to promote their products and services. Instagram's success has also led to the creation of a new category of social media influencers, known as "Instagram influencers". These influencers are individuals who have a large following on Instagram and are often used by brands to promote their products and services.
