[illegible]

2014 -2017

4.4 billion people projected to use apps in 2017. This is a significant increase from the 1.2 billion people who used apps in 2014. The app economy is expected to reach \$77 billion in revenue by 2017.

iOS app development is a highly competitive market. Developers need to stay up-to-date with the latest trends and technologies to succeed in this market.

Developers need to stay up-to-date with the latest trends and technologies to succeed in this market. This includes understanding the latest iOS features and APIs, as well as the latest app development tools and frameworks. Developers also need to understand the latest marketing and distribution strategies for iOS apps. By staying up-to-date, developers can create high-quality apps that meet the needs of users and generate revenue for themselves.

Google

!The Google logo is a well-known symbol of the company. The group of people standing in front of the building are likely Google employees or partners.

Google is a leading technology company. It provides a wide range of products and services, including search, advertising, and cloud computing. Google is committed to innovation and improving the lives of people around the world.
