

Huawei mobile phone charging fire # sleep, and then send a bar ~ 51 morning things happen to now is the past four days, the fire exploded the charger was taken to detect, I was agreed to test, I always So that the responsibility in my words, I will not rely on Huawei do not let go, so do, both sorry my conscience, but also sorry for the brand in Huawei, after all, a business development to this level is not easy of. But I also hope that this enterprise can objectively deal with this matter, at least to be worthy of the user, please do not first reaction is to the responsibility to us, the home of the circuit to Huawei to find the professional electrical inspection finished, the current fire caused by the charger The line is not used. I would like to say that I live for 6 years of commercial housing, all the electrical appliances at home can be used normally, you suspect that my home voltage problems, I do not deny the possibility, but I personally think that the possibility of small. More than 90% of users on the network are very supportive of me, I am very grateful for a few to call my friends, I will not go to explain to you, I have clarified, you can contact Tengzhou Huawei's after-sales to evidence, This event is not my fake story. Huawei is now my answer is the test results come out, they can handle this matter. I want to say, as long as your test is fair, I can wait, but please keep the fire that blow the charger, do not lose it. Some friends want to see my purchase notes, I look on the sun, thumb position my phone number, I block it. Put away the full text ^
