

Intel® Core™ i7-7700HQ Processor 20 «H» series processor with 4 cores and 8 threads, up to 4.5 GHz turbo frequency, 6 MB cache, 4K video recording, 360° video recording, 15W TDP (i7-4700HQ series).
The Intel® Core™ i7-7700HQ Processor is a high-performance processor designed for mobile devices. It features 4 cores and 8 threads, with a turbo frequency of up to 4.5 GHz. The processor also includes a 6 MB cache and supports 4K video recording and 360° video recording. The TDP is 15W. The processor is available in a BGA package.
