[illegible]

iPhone SE 2016 64-bit A9 chip, 12MP iSight camera, Touch ID, and Siri. The SE is the smallest iPhone ever, but it packs the same powerful A9 chip and 64-bit architecture as the iPhone 6S. It also features the same 12MP iSight camera with optical image stabilization, and the same Touch ID sensor and Siri voice assistant. The SE is the most affordable iPhone ever, starting at just \$169.

iPhone SE 2016: Live Photos

The iPhone SE 2016 introduces Live Photos, a new feature that captures a 3-second video clip along with a still photo. This allows you to bring your photos to life, showing motion and sound. To take a Live Photo, simply tap the Live Photos icon in the camera interface. You can also take a Live Photo by holding the shutter button down.
