It includes a line drawing of a person's face looking at a smartphone. Below the drawing, it lists two conditions for best performance: "When the device is held steady and upright" and "When the device is in a well-lit area". At the bottom of the notification is a checkbox labeled "Do not show again" and an "OK" button. The background of the phone screen shows a list of contacts, and the top status bar displays the time as 5:44 PM and 78% battery.
