Windows 10 Photos app is a great tool for creating videos. It offers two main options: Automatic and Freeform. The Automatic option generates a video for you, edited to the beats of your soundtrack. You can customize the pace, music, and order. The Freeform option allows you to trim, sequence, and edit manually. The More Customization screen provides additional options like trimming clips, adding looks and titles, and adjusting volume. The Convert to Freeform button is also available.
