Windows 10 Remote Desktop Connections

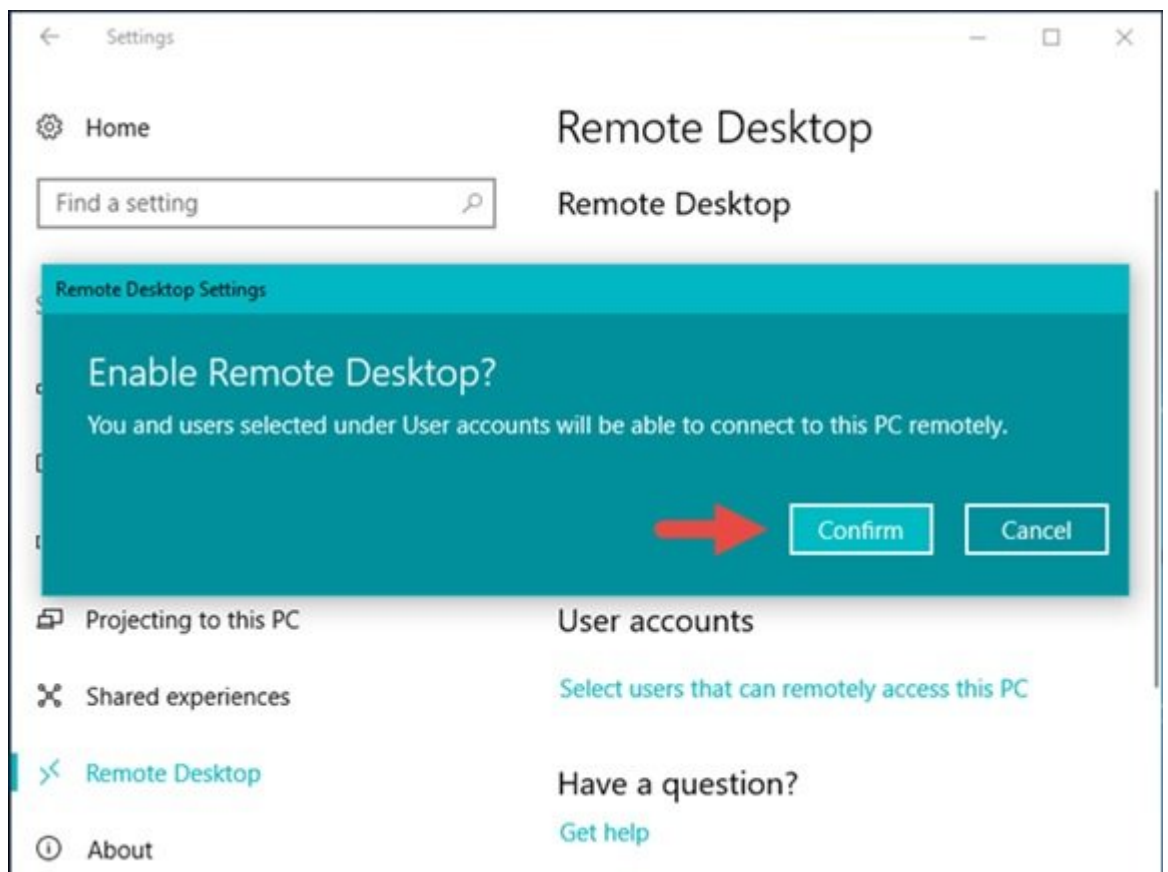

Windows 10 Fall Creator 更新後、Remote Desktop Connections を使用して、他の Windows 10 マシンに接続できるようになりました。この機能は、17 年 10 月の更新で導入されました。この機能を使用するには、Windows 10 マシンに Remote Desktop Connections をインストールする必要があります。Windows 10 には、Settings を開く方法がいくつかあります。ここでは、Windows+I キーを使用して Settings を開く方法について説明します。

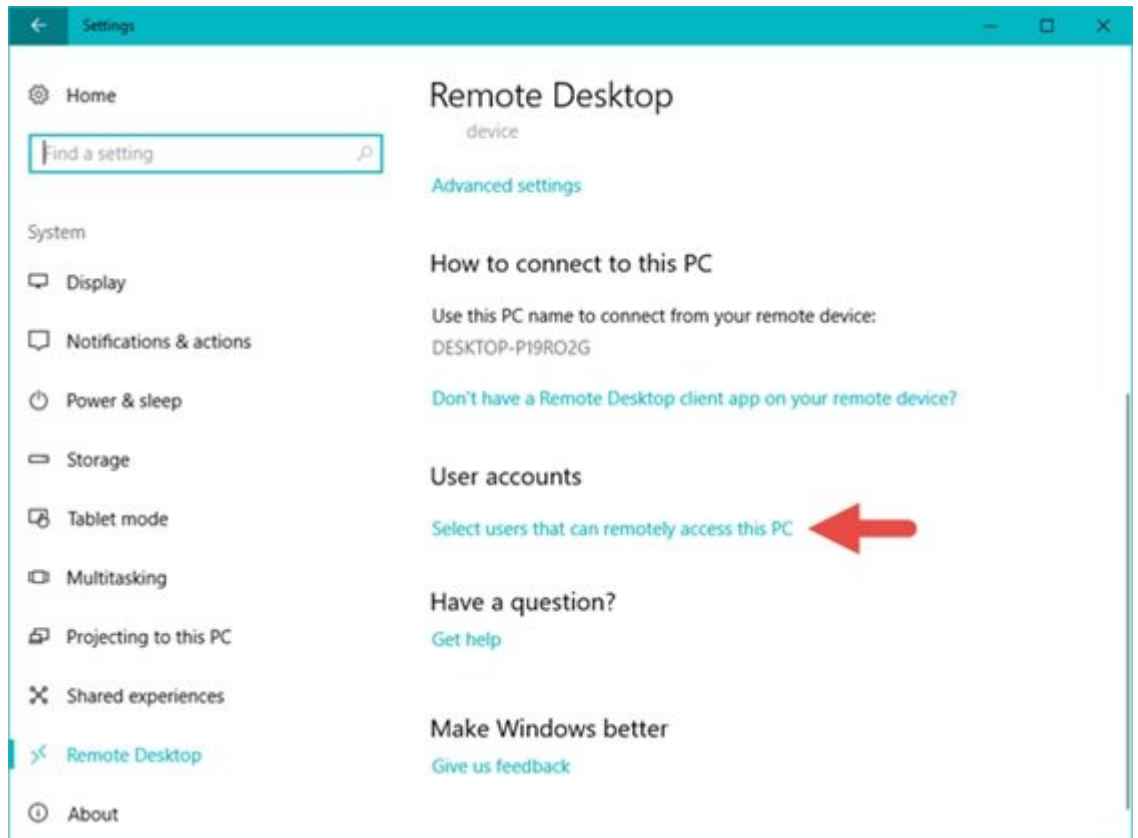

System の Settings を開く方法

Confirm 10 minutes. .

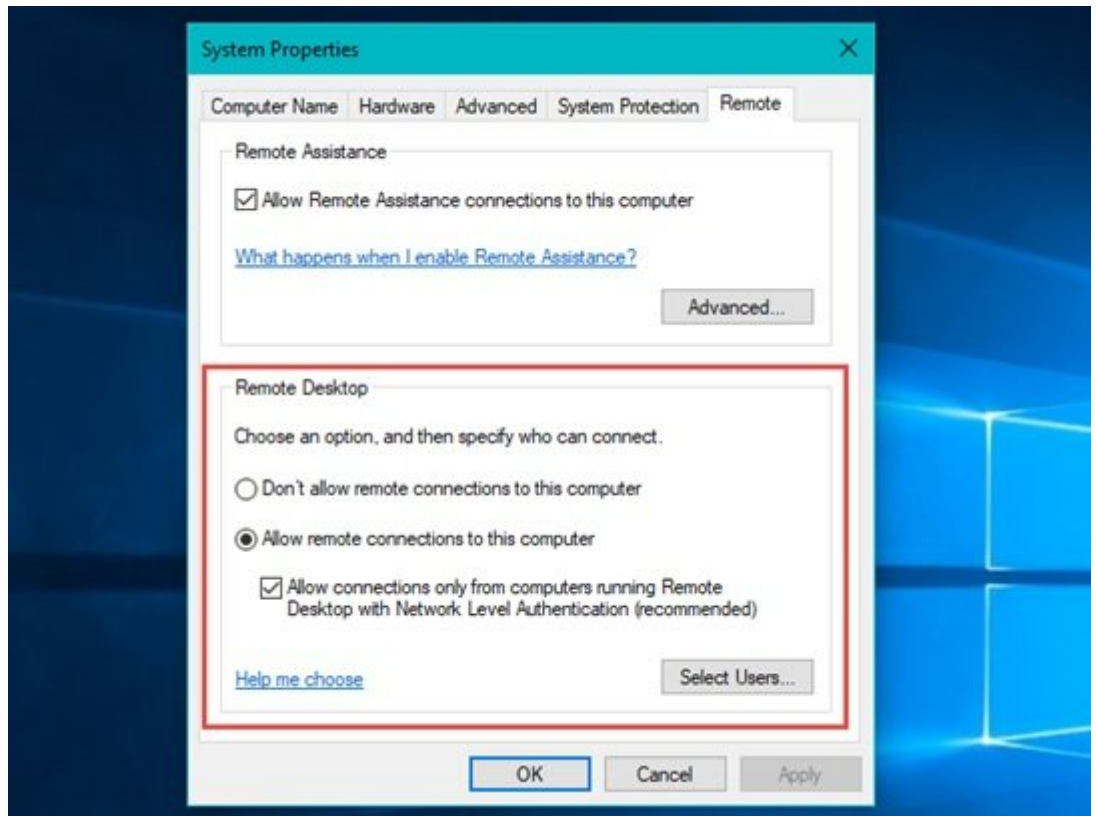

. Enable Remote Desktop

10. Remote Desktop Users group. This group is used to specify which users are allowed to connect to the remote computer. By default, only members of the Remote Desktop Users group can connect to the remote computer. To add users to this group, click on the link "Select users that can remotely access this PC" under the User accounts section.

7. Control Panel Remote Desktop Connections

Remote Desktop Connections are managed in the Control Panel. To open the Control Panel, click on the "System and Security" link in the bottom right corner of the Windows Settings application.
