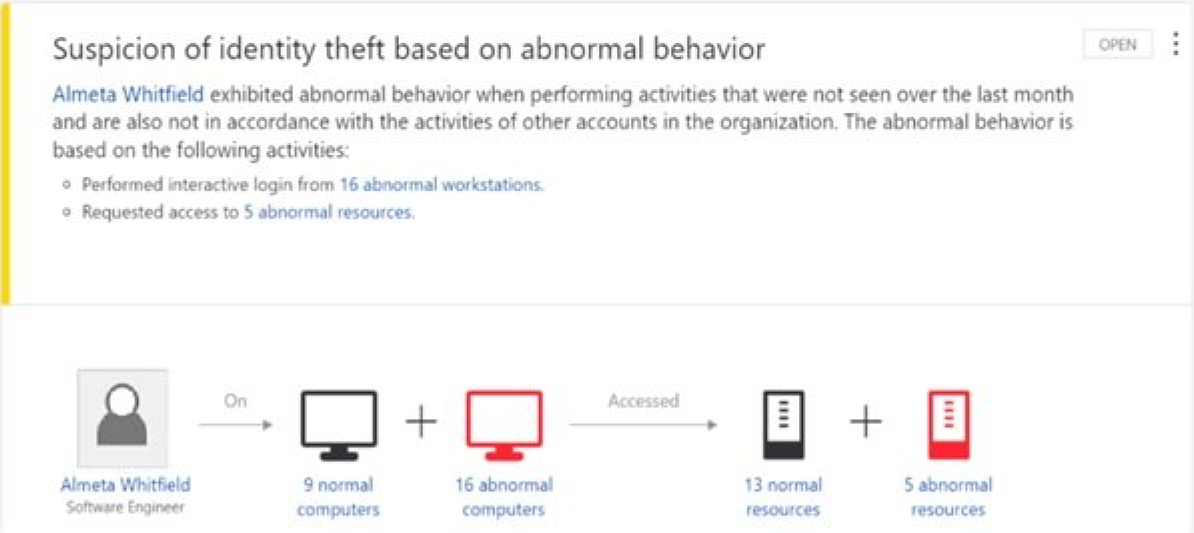
Identity Theft Using Pass-the-Ticket Attack

Demi Albuz's Kerberos tickets were stolen from CLIENT1 to CLIENT2 and used to access DC1 (CIFS).

Recommendations

- Disconnect the relevant computers from the network or move them into an isolated environment and start a forensics procedure by investigating: unknown processes, services, registry entries, unsigned files, and more
- Disable Demi Albuz's account

[illegible] 16 [illegible] ATA [illegible].



Suspicion of identity theft based on abnormal behavior

Almeta Whitfield exhibited abnormal behavior when performing activities that were not seen over the last month and are also not in accordance with the activities of other accounts in the organization. The abnormal behavior is based on the following activities:

- Performed interactive login from 16 abnormal workstations.
- Requested access to 5 abnormal resources.
