

A black 1U rack-mountable network switch. It features 16 RJ45 ports arranged in two columns of eight. Each RJ45 port has a green LED indicator. To the right of the RJ45 ports are two SFP (Small Form-factor Pluggable) ports, each with a green LED indicator. The switch is mounted on a rack with four screws on the left and right sides. The front panel has a black bezel with the ports and LEDs. The top of the switch has a black handle for easy access. The bottom of the switch has a black base with mounting tabs. The switch is labeled "16-Port Gigabit Ethernet Switch" on the front panel.
