ENCRYPT SD CARD

You can encrypt SD cards. Encrypted SD cards can only be read on the device used to encrypt them. Tap ENCRYPT SD CARD to start the encryption process.

Encryption could take an hour or more. Before you start, make sure that the battery is charged and keep the device plugged in until encryption is complete. During the encryption process, the SD card cannot be used. If your device is reset to factory default settings, it will be unable to read encrypted SD cards.
