

A screenshot of a Windows 10 desktop. The background is the standard Windows 10 blue wallpaper. The Start menu is open on the left, displaying a grid of app tiles including Internet Explorer, Microsoft Edge, Remote Desktop Connection, and various productivity apps. The taskbar at the bottom shows several pinned applications. A File Explorer window is open in the center, displaying the 'This PC' view with icons for Desktop, Documents, Pictures, Recent Files, and other storage locations. A 'Remote Desktop Connection' dialog box is also visible in the upper right area of the desktop.

❖ **Windows 10** : Windows 10 is a major update to the Windows operating system. It was released in July 2015 and is the first Windows version to be available as a free upgrade to Windows 7 and Windows 8.1 users. Windows 10 introduces a new interface called the Windows Start menu, which is a hybrid of the Windows 7 Start menu and the Windows 8 Start screen. It also includes a new taskbar, a new search function, and a new Cortana digital assistant. Windows 10 is designed to be more secure, more reliable, and more efficient than previous versions of Windows. It also includes a new Windows Defender security suite, a new Windows Firewall, and a new Windows Security Center. Windows 10 is available on a wide range of devices, including desktop PCs, laptops, tablets, and smartphones. It is also available as a cloud-based operating system, called Windows 10X, which is designed for use on Surface and other hybrid devices.
