The **coronavirus** COVID-19 is affecting **157 countries and territories** around the world and **1 international conveyance** (the *Diamond Princess* cruise ship harbored in Yokohama, Japan). **The day is reset after midnight GMT+0**. The "New" columns for China display the previous day changes (as China reports after the day is over). For all other countries, the "New" columns display the changes for the current day while still in progress.

Do you think that Italy's numbers are wrong? Read here

I've been following this website: https://www.worldometers.info/coronavirus/

As I'm sure many of you have. And last time I checked there are some STRANGE statistics.

The death toll skyrocketed with 892,000+ deaths attributed to Vatican City.

I'm pretty sure it's in response to this news article about the pope praying for a Corona Virus cure.

Given the situation this almost seems like a hack done by terrorist groups who like to spread misinfo
hacker. Either way it's a shame and a bit distasteful.

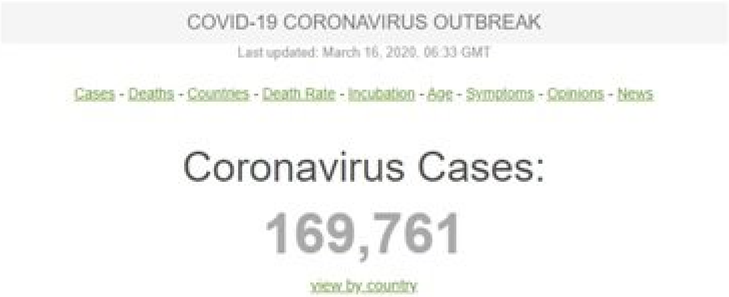
We apologize for the temporary disservice that you may have experienced. For about 20 minutes, our site showed clearly incorrect data due to a malicious act. We have investi
we got hit with a big DDoS attack. Now this. We'll continue with our daily efforts and we'll not give up.



COVID-19 CORONAVIRUS OUTBREAK
