

The screenshot shows the OpenSignal website interface. At the top, there are navigation links: PRODUCTS, SUPPORT, BLOG, and ABOUT. Below these, there are buttons for downloading the app on the App Store and Google Play. The main content area features a map of Tehran, Iran, with a search bar and filters for location and network type. The map shows signal coverage for 4G networks, with green indicating strong signal and red indicating weak signal. A legend at the bottom left explains the signal strength levels: NO DATA COLLECTED (grey), WEAK SIGNAL (red), and STRONG SIGNAL (green). The map is updated as of 5th Aug 2016.
