The figure displays three screenshots of the 'My Pregnancy' app interface, demonstrating its contraction tracking capabilities.

- Left Screenshot:** Shows the '1-HOUR PATTERN' view. At the top, it indicates 'LIVE' status and a help icon. Below, a timeline from 2:51 PM to 3:40 PM shows contraction events as vertical bars. A graph below the timeline shows the contraction pattern with two peaks labeled '1:07' and '0:59'. A 'STOP' button is visible.
- Middle Screenshot:** Shows the '1-HOUR STATS' view. It displays 'LIVE' status and a help icon. The main statistics shown are a frequency of '6:05 m' and a duration of '0:58 m'. Below, a timeline from 6:33 PM to 7:33 PM shows contraction events. A graph below the timeline shows the contraction pattern with two peaks labeled '0:59' and '0:59'. A 'STOP' button is visible.
- Right Screenshot:** Shows the 'HISTORY VIEW' of the app. It displays 'LIVE' status and a help icon. The view shows a calendar for 'WEEK 28 | Nov 26 - Dec 2'. The days of the week are listed: S, S, M, T, W, T, F. The 'T' (Thursday) is selected. Below the calendar, a list of contraction events is shown for specific dates and times: 'Thu, December 1 1:53 PM' (1:57 PM to 2:57 PM), 'Wed, November 30 9:17 AM' (11:27 AM to 12:27 PM), 'Mon, November 28 10:33 AM' (10:52 AM to 11:52 AM), and 'Thu, November 24 10:53 PM' (7:02 AM to 8:02 AM). Each event is represented by a timeline showing contraction events as vertical bars.
