

WanaCry

WanaCry ransomware is a type of malware that encrypts files and demands a ransom for their return. It is a significant threat to businesses and individuals alike.

The ransomware demands a payment to decrypt the files. The payment deadline is 5/15/2017 12:36:07. The ransom amount is \$1000. The ransomware also offers a free decryption service if the user does not pay within the deadline.
