Introducing

Windows 10 Pro for Workstations

A new edition of Windows, with unique support for server grade hardware and designed to meet demanding needs of mission critical and compute intensive workloads

Resilient File System

Enhance the resilience and scalability of workstations by running Microsoft's server grade Resilient File System (ReFS) designed for high fault tolerance and handling large data volumes.

Persistent memory

Enable demanding workloads to access important files at the speed of memory with high-end persistent memory hardware configurations.

Faster file sharing

SMB Direct facilitates file transfers between PCs and Servers with large datasets, all with high throughput, low latency, and low CPU usage.

Expanded hardware support

Handle demanding workloads by running Windows 10 Pro for Workstations with the support high end configurations including server grade Intel Xeon and AMD Opteron processors, up to 4 CPUs, and up to a massive 6TB of memory.
