

A promotional image showing three ASUS motherboards standing upright against a dark background. From left to right: the ROG Strix Z390-A motherboard with its distinctive blue and white design and rainbow RGB lighting; the PRIME X299-DELUXE motherboard with a clean white and black aesthetic and green RGB lighting; and the TUF Gaming Z390 motherboard with a rugged, military-inspired look and yellow and blue RGB lighting. The boards are set on a reflective surface that shows their illuminated forms.
