

Uranus at opposition Oct. 19

Uranus and Sun are on opposite sides of Earth

The diagram illustrates the celestial alignment during the opposition of Uranus on October 19. A horizontal line represents the ecliptic. On the left, a blue dot is labeled 'Uranus'. On the right, a red dot is labeled 'Earth'. A yellow dot, representing the Sun, is located at the center of the line, between Uranus and Earth. This configuration shows that Uranus and the Sun are on opposite sides of Earth.
