.Your Phone app is a great way to connect your Windows 10 PC to your Android phone. It allows you to view photos, messages, and apps from your phone on your PC. You can also use your PC as a remote control for your phone. The app is available for free in the Microsoft Store. To get the most out of the app, make sure your phone is connected to the internet and that you have the latest version of the app installed. The app is a great addition to your Windows 10 setup and can help you stay connected to your phone while working on your PC.

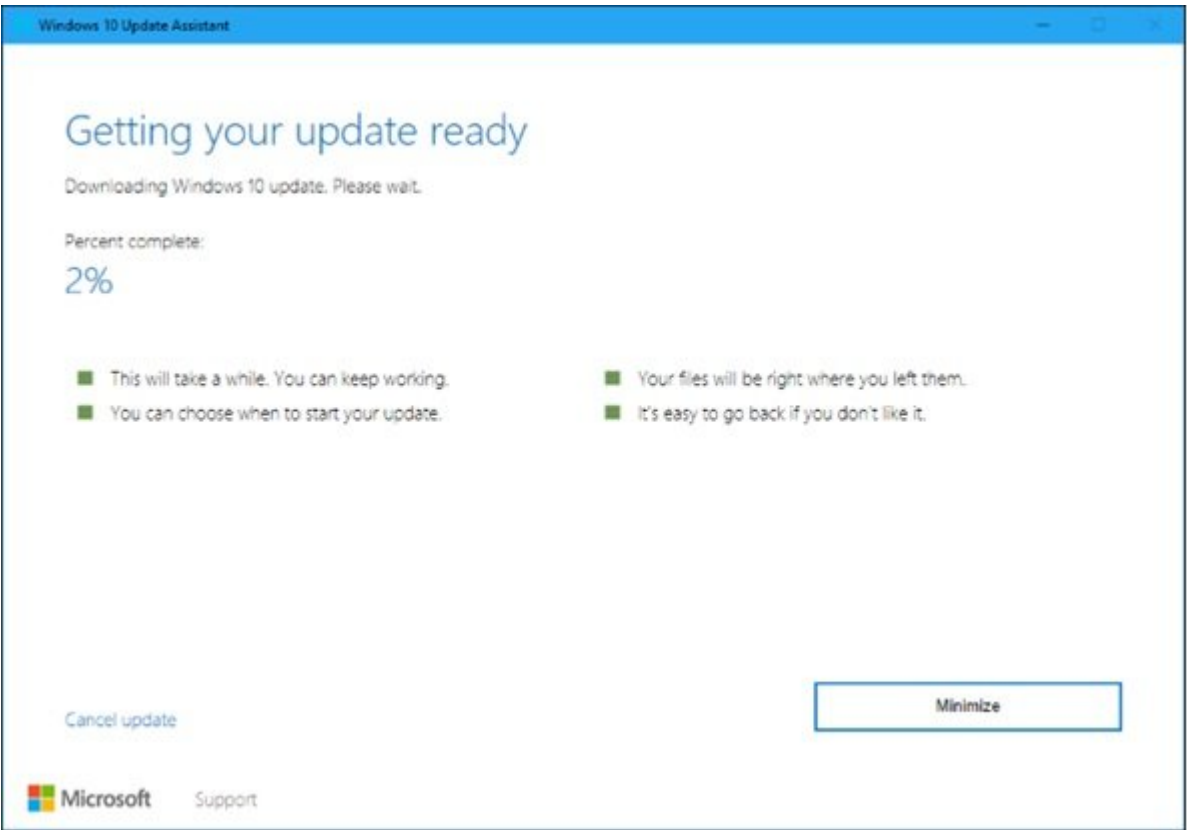

The Windows 10 clipboard is a great feature that allows you to store and manage multiple items copied to your clipboard. By default, the clipboard only stores the most recent item, but with the Windows 10 update, you can now store up to 25 items. This is a great feature for users who need to copy and paste multiple items frequently. To access the clipboard history, press the Windows key + V. This will open a window showing a list of all the items you have copied. You can then click on any item to paste it into your current application. The clipboard history is a useful tool for anyone who works with a lot of text or images.
