A stylized illustration of a toolbox. The toolbox is dark blue with a lighter blue '@' symbol on its lid. Inside the toolbox, there are five compartments. From left to right: a hammer with a yellow handle and a brown head; a purple pencil; two green pens; a silver wrench; and an orange screwdriver with a silver handle. Each tool is placed in its respective compartment, which is outlined with a dashed white line.

Words: 133

Show More ▾

2 adverbs, meeting the goal of 2 or fewer.

1 use of passive voice, meeting the goal of 2 or fewer.

1 phrase has a simpler alternative.

1 of 11 sentences is hard to read.

1 of 11 sentences is very hard to read.

Hemingway App makes your writing bold and clear.

The app highlights lengthy, complex sentences and common errors; if you see a yellow sentence, shorten or split it. If you see a red highlight, your sentence is so dense and complicated that your readers will get lost trying to follow its meandering, splitting logic — try editing this sentence to remove the red.

You can **utilize** a shorter word in place of a purple one. Mouse over them for hints.

Adverbs and weakening phrases are **helpfully** shown in blue. Get rid of them and pick words with force, **perhaps**.

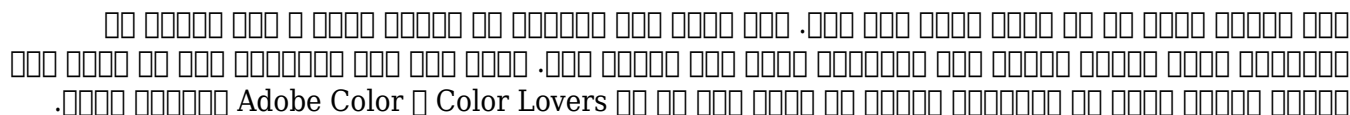

Phrases in green have **been marked** to show passive voice.

You can **format** your *text* with the toolbar.

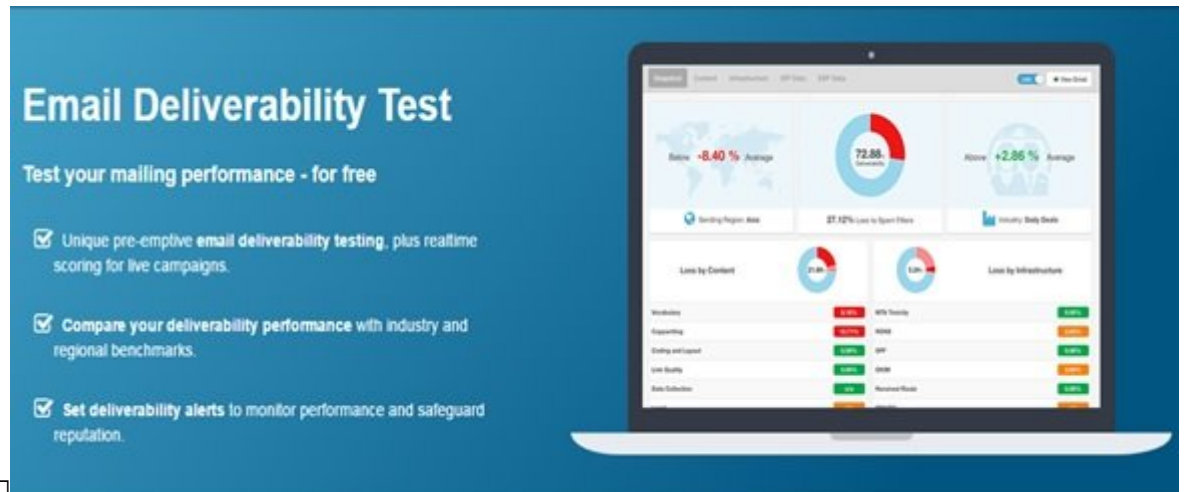

Paste in something you're working on and edit away. Or, click the Write button and compose something new.

Re: Widgets?

Nikola Tesla

11:31 AM (2 hours ago)

to me

Hello,

Thank you kindly for following up on our exciting discussion of widgets. In particular, I'm in the market for widgets of the electric variety.

Regards,
Nikola

[Code of Conduct](#)

[Help](#)

Mailman is free software for managing electronic mail discussion and e-newsletter lists. Mailman is integrated with the web, making it easy for users to manage their accounts and for list owners to administer their lists. Mailman supports built-in archiving, automatic bounce processing, content filtering, digest delivery, spam filters, and more. See the [features page](#) for details.

Mailman is free software, distributed under the [GNU General Public License](#), and written in the [Python](#) programming language.

We want to thank our generous list of [financial donors](#) whose contributions allowed us to send a core developer to PyCon 2015. Please consider [donating to the GNU Mailman project](#) yourself. ([details](#))

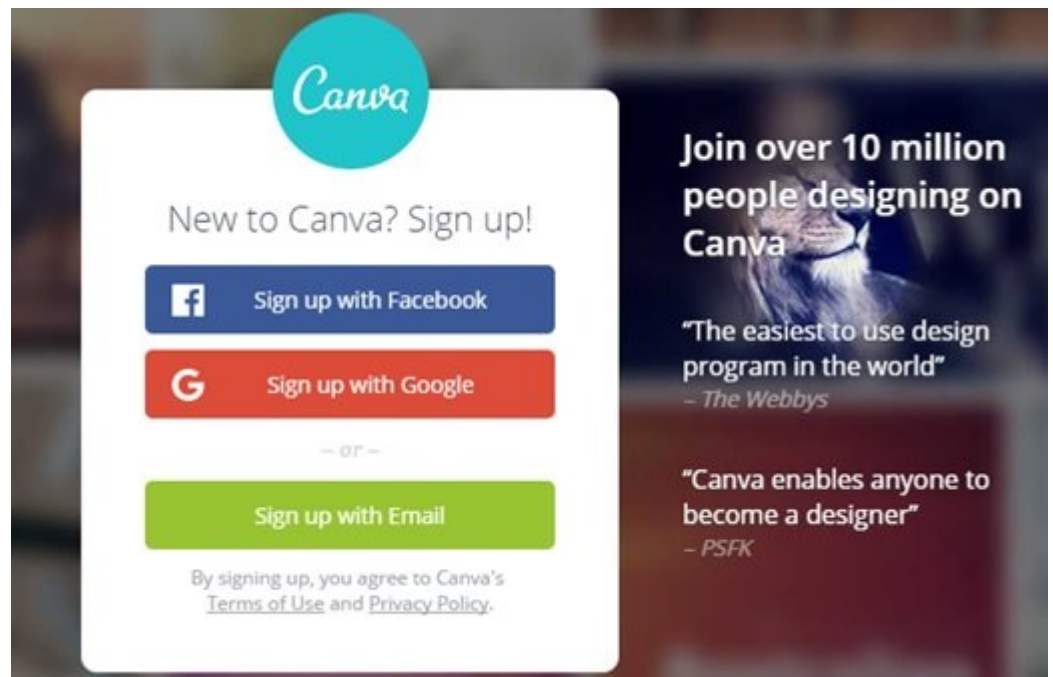

See the [Security page](#) for important security related information, and the [help](#) page for additional resources for users, list and site administrators, and developers.

Our [wiki](#) has lots of other great information, including a [FAQ](#).

Our [Code of Conduct](#) applies to all of our modes of discussion and collaboration, including the GNU Mailman mailing
